## Standard Motor Products, Inc. Releases TechSmart® Winter 2013 Line Expansion

*Providing Smart Solutions for Today's Technicians™*

**Long Island City, N.Y., Feb. 19, 2013** - Standard Motor Products, Inc. (SMP®) announces it has expanded its TechSmart® line of enhanced engine control products for professional service technicians by adding 55 new premium parts.

Highlighting this release are more than 30 new HVAC air door actuators and blend door motors, expanded fuel level sensor coverage for Nissan/Infiniti trucks, plus eight new expansion tank service kits for European applications. TechSmart has also added a knock sensor wiring harness for GM V6/V8 – this application has a very high original replacement rate.

“The TechSmart brand is fast becoming recognized in the industry for its innovation, engineering expertise, superior product quality and competitive pricing,” said Phil Hutchens, senior director of marketing, SMP. “Each part has been specifically chosen to meet the TechSmart core criteria of providing professional service technicians with new technology, new categories and problem-solving improvements to the original – with a proven quality they can trust.”

For additional information, contact an SMP sales representative or visit [www.TechSmartParts.com](http://www.TechSmartParts.com).

### **About SMP:**

SMP supplies independent professional auto technicians and automotive do-it-yourselfers with high quality replacement parts for engine management ignition, emission and fuel systems as well as temperature control products for domestic and import cars and light trucks. SMP products are sold through both traditional and non-traditional distribution channels. For more information, visit [www.smpcorp.com](http://www.smpcorp.com).
