Standard Motor Products Introduces New SMP Alternative Energies Website

NEW YORK, N.Y., April 18, 2016 – Standard Motor Products, Inc. (NYSE: SMP) introduces a new website to highlight its SMP Alternative Energies initiative: www.smpae.com.

According to the website, the company's Alternative Energies division leverages SMP's years of automotive experience to develop products for cleaner burning fuels and electric vehicles.

Additionally, the SMP Alternative Energies website highlights market trends such as the use of natural gas and autogas to power ignition combustion engines. It also showcases SMP's selection of alternative energy products, including fuel injectors for natural gas applications and high energy ignition coils for OEM, Tier 1, and Industrial customers.

Commenting on the launch, Phil Hutchens, Vice President Engine Management Marketing, SMP, said, "As leaders in the alternative energies market, we're excited to launch our SMP Alternative Energies website. It allows us to deliver solutions that meet or exceed customer and regulatory requirements while having a positive impact on the environment and fuel independence."

About SMP:

SMP supplies independent professional auto technicians and automotive do-it-yourselfers with high quality replacement parts for engine management ignition, emission and fuel systems as well as temperature control products for domestic and import cars and light trucks. SMP products are sold through both traditional and non-traditional distribution channels. For more information, download the SMP® Parts mobile App or visit www.smpcorp.com.
