Standard Motor Products Releases 213 New Parts for Standard[®] and Intermotor[®]

NEW YORK, N.Y., July 11, 2016 - Standard Motor Products, Inc. (SMP) announces the addition of 213 new part numbers to its Standard[®] and Intermotor[®] lines. The release spans 49 product categories and expands coverage through the 2016 model year with more than 100 million additional VIO.

SMP continued to make expansions to its diesel program, with the introduction of a diesel fuel injection harness, diesel fuel transfer pump, and diesel glow plug wiring harness, among others. The company also added 15 turbochargers, including both new and remanufactured units for gas and diesel applications.

SMP made key additions to its sensor category, as well, introducing 75 new sensors covering 34 million VIO. Highlights include ABS speed, accelerator pedal, ambient air temperature, crankshaft, knock, steering angle, and transmission oil temperature sensors. Other notables include 58 power door lock actuators and 10 fuel vapor canisters.

Phil Hutchens, Vice President Engine Management Marketing, SMP, commented on the new items, stating, "Our latest release demonstrates our commitment to giving our customers increased coverage and superior quality in key categories such as diesel, turbochargers, sensors, and switches."

All new applications are listed in the eCatalogs found at www.StandardBrand.com and www.IntermotorImport.com and in electronic catalog providers. To learn more about this release, view Standard's [New Parts Spotlight](#).

Standard[®] offers premium engine management related products, including computerized engine controls, TPMS sensors, and fuel injection components for domestic vehicles. Intermotor[®] offers a full line of genuine import products that are unrivaled for their superior quality, original match and comprehensive coverage.
